

## ROHS STATEMENT 01.07.2020

### 1 Background

This statement informs about the status and conformity of Finnish SpecialGlass Oy in relation to the RoHS directive 2011/65/EU.

The regulations concerning the Restrictions of the use of certain Hazardous Substances (RoHS) in electrical and electronic equipment are described in EC directive 2011/65/EU in combination with EC directive 2015/863/EU for Annex II. The directive requires that the materials used must not contain the substances specified therein level greater than specified also therein while allowing certain exemptions.

### 2 RoHS

Based upon the review of the information provided to us by our suppliers, we confirm that all glass products manufactured by us meet the up to date July 22, 2019 requirements of RoHS Directive 2011/65/EU. This means that the products do not contain the substances listed in RoHS Directive 2011/65/EU in concentration greater than the listed maximum limit value at homogeneous material level or comply the given current exemptions. In the specific case, in which the customer provides or specifies a certain non-standard material to be used in the production, the customer shall be responsible for the RoHS conformity.

### 3 Information communication requirements

The information given in the present declaration is based upon the current level of our knowledge and is intended to provide information about our products. It should therefore not be construed as guaranteeing specific properties. Buyer or user are responsible for ensuring that the products they use, as supplied by us, comply with the specific requirements of their intended application.
